With reference to the provision of the Security Officers Regulations of 1992, courses on grades were provided for, with lists of modules aligned to each Grade.

In terms of the required services offered by the security officers within the private security, there are number of competencies required for security officers in order to meet their expected performance and to comply with the Code of Conduct for Security Service Providers, 2003.

The Authority is therefore notifying the private security training providers accredited by PSiRA on grade E, to anticipate an additional topic on "**Human Right**" that will aim to provide basic knowledge on human rights as part of the current grade E as of 1 April 2017.

Kindly take note all security officers who already obtained Grade E will be informed of any requirements to comply with in the near future.

In order to ensure effective implementation on the additional module as the integral of Grade E training, guidelines will be provided once the manual is being developed.
