Re: UPLOADING OF LEARNER ACHIEVEMENTS VIA EDUDEX

Dear Provider

Kindly note that the SASSETA is currently implementing a new SETA Management System for learner uploads.

The implication of this is that learner uploads will no longer be done via Edudex. The server through which the learner uploads have been done to date will be switched off with immediate effect and providers are urged not to try uploading any records forthwith.

Providers will be informed of the new procedure for electronic uploads in June 2011.

In the meantime, any urgent submissions should be made using the FCA01/FCA02 or SP01/SP02 forms. The forms are available on www.sasseta.org.za under the Downloads section.

Sincerely
