2. TERMS OF REFERENCE

2.1 INTRODUCTION

The Safety and Security Sector Education and Training Authority (SASSETA) was established on 1 July 2005. It is one of the 21 Sector Education and Training Authorities (SETA's) established in terms of the Skills Development Act (Act 97 of 1998) as amended. SASSETA's licence has been renewed until 31st March 2030. The SETA is classified as a schedule 3A Public Entity in terms of the Public Finance Management Act, (Act 1 of 1999, as amended) and is accountable to the Department of Higher Education and Training (DHET).

The Safety and Security Sector includes components of two of the major sectors in the Standard Industrial Classification (SIC) namely Group 8 (Finance, Real Estate and Business Services) and Group 9 (General Government Services). SASSETA has grouped its constituencies into seven subsectors (also known as chambers), namely: Policing, Corrections, Defence, Justice, Intelligence Activities, Legal Services, as well as Private Security and Investigation Activities.

2.2 BACKGROUND

2.2.1 SASSETA's Research Agenda

2.2.1.1 The purpose of the Research Agenda is to support a sound skills planning in order to respond to the skills development needs of the safety and security sector. This document also spells out the SETA's research focus areas for the period: 2021 - 2025, which are:

- Developing internal research capacity;
- Supporting and developing research networks (i.e. reference group) for the sector;
- Linking SASSETA's post-graduate bursaries holders with certain topics that are of significance in the sector, building a research repository for the sector, and developing systems and processes to improve SASSETA information [management]. In essence, the SASSETA's *Research Agenda* has been developed to support and the advance the SETA-sector strategy, as well as;
- To further inform stakeholders in various sub-sectors about the SETA's research focus areas and priorities.

2.2.1.2 In essence, SASSETA is committed to its mandate to be labour market intelligent centre for the sector and take any possible and viable measure to ensure that it has a credible and professionally researched sector skills plan and hence; be able to support relevant education and training interventions in the sector, particularly in the context of the National Skills Development Strategy (NSDS) III, the National Skills Development Plan (NSDP), 2030, as published by the DHET in March 2019 and the White Paper for Post-School Education and Training.

a) The National Skills Development Plan

The National Skills Development Plan (NSDP) as a policy document envisions of South Africa, an educated, skilled and a capable workforce. The NSDP's quest is to support economic growth, employment creation and social development through improving access to occupations in high demand and priority skills aligned to

economic enhancement. In addition, the NSDP seeks to achieve an adequate and appropriate skilled workforce that is critical for and responsive to the economic needs. Moreover, the NSDP details the outcome, which as the SETA must contribute towards achieving them. In a nutshell, the aim of the NSDP is to promote and advance the goals of the National Development Plan (NDP) through skills development.

b) The White Paper for Post-School Education and Training

In addition to the NSDS III (and now the National Skills Development Plan (2030)), the White Paper for Post-School Education and Training notes that research should be at a centre of building a focus and responsive post-schooling system. It also asserts that partnership with higher education institutions (HEI) and industry need to be established to support research on industry needs and skills planning. It is envisaged that research will support skills priority actions as identified in the SSP. These are:

- Partnership with sector training institutions and academies;
- Transformation and professionalization of the sector;
- Information communication and technology (ICT) skills;
- Technical and specialised skills; and
- Building an active citizenry (DHET, 2019; DHET 2013; DHET, 2011).

2.2.2 SASSETA's Research priorities

2.2.2.1 SASSETA's *Research Agenda* comprises four focus areas. It therefore worth noting that the themes/topics under each focus area are complementary and not exhaustive. The research priority areas for the Research Agenda are:

- Sub-sector and labour market research;
- Professionalization and transformation of the sector;
- Evaluation studies, including tracer, tracker and impact assessment studies; and
- Supporting and developing research capacity in the sector.

a) Sub-sector and labour market research

This priority area is aimed at ensuring that sector needs are best catered for and to enable the SETA to address and align skills production for the sector. It builds on past knowledge of the subsector(s) reports which feeds into the annual update of the *Sector Skills Plan* (SSP), especially chapters on the Sector profile, Key skills issues as well as the Extent of skills mismatch in order to identify scarce and critical skills for the sector.

b) Professionalization and transformation of the sector

This priority area seeks to contribute towards professionalization and transformation of the sector by providing knowledge or understanding to progressively implement skills development interventions that would contribute towards transformation and professionalization in the sector.

c) Evaluation studies (including tracer, tracker and impact assessment studies)

This priority area focuses on studies that seek to reflect on and self-critique the efficacy and effectiveness, as well as the impact of skills development interventions implemented in advancing the mandate of the SETA, particular in terms of professionalising and transforming the sector.

d) Supporting and developing research capacity in the sector

The focus of this priority area is threefold. Firstly, it seeks to support and develop research capacity in the sector in order to close knowledge gaps. Secondly, the priority strives to harness existing knowledge in order to improve SASSETA's interventions and response in addressing skills development in the sector. Finally, the priority area seeks to increase the pool of researchers within the safety and security sector.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Standard Bidding Document (SBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and bids.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
